

# Franche Primary snow day KS2 home learning challenges!

<input type="radio"/> Read a book in a snowy place.		<input type="radio"/> Build an indoor igloo out of cushions, pillows and blankets. Try reading a different book in there too!	<input type="radio"/> Create a new pet out of snow. What would its diet be? How has it adapted to live in the snow?
<input type="radio"/> Science challenge: collect cups of snow and test different materials as insulators to try to stop the snow melting.	<input type="radio"/> Make a snow castle kingdom with buckets and spades or cups and spoons. Who will live in it?	<input type="radio"/> Practise your number bonds on Numbots: <a href="https://play.numbots.com/">https://play.numbots.com/</a> or timetables on TT Rockstars: <a href="https://ttrockstars.com">https://ttrockstars.com</a>	

☐ Look what landed on our school field last night!

What do you think caused the giant snowball to fall from the sky?

How do you think the people of Kidderminster felt when they saw it falling through the sky?

What happened next?

Story starter:

All night long, snow upon snow fell upon Kidderminster then suddenly stopped. A deep rumble echoed through the quiet town. Startled, the people rushed to their windows to witness an incredible sight. A colossal snowball, the size of a house, had fallen from the sky and landed on the Franche school field. Wide-eyed and curious, Dan went to take a closer look. When he got closer, he realised this was no ordinary ball of snow. It shimmered with a faint glow, emitting a strange energy.

His ordinary snow day was about to turn into a very unexpected adventure...

Can you continue the story?

We would love to see your home learning efforts! Please email them to your year band email address:
